REPORT & ACCOUNTS

Unaudited Interim Report and Accounts
for the six months ended 30 June 2007

MATRIX

Investment Objective

Matrix Income & Growth VCT plc is a Venture Capital Trust ("VCT") managed by Matrix Private Equity Partners investing primarily in established, profitable, unquoted companies.

The Company's objective is to provide investors with a regular and growing income stream, by way of tax free dividends, and to generate capital growth through portfolio realisations, which can be distributed by way of additional tax free dividends.

| Net cumulative dividends paid per share** | 3.20p | 1.00p | 1.80p |

*Net asset value per share plus cumulative dividends per share. This compares with an original investment cost of 100 pence per share, which after allowing for income tax relief of 40 pence per share equates to 60 pence per share.

**For a breakdown of recent dividends paid, please see 'Dividends paid' in the Income Statement on pages 8-9 of this Interim Report.

In addition, an interim dividend of 1.00 penny per share has been declared and is payable on 20 September 2007 to Shareholders on the Register on 24 August 2007, thereby increasing net cumulative dividends to 4.20 pence per share.

Chairman's Statement

I am pleased to present this Interim Report covering the six month period ended 30 June 2007.

Results and dividend

The revenue account generated a net return (after tax) for the period of £306,813 (30 June 2006: £231,302). The Board has declared an interim dividend of 1.00 penny per share (2006: 0.80 of a penny per share) which will be paid on 20 September 2007 to Shareholders on the Register on 24 August 2007.

Net asset value

The net asset value (NAV) at 30 June 2007 was 107.29 pence per share (30 June 2006: 94.13 pence per share) compared with an NAV of 100.64 pence per share at the beginning of the period, an increase of 6.6%.

Investment portfolio

No new investments were completed during the period. This, in part, reflected an extremely competitive environment for private equity deals leading to inflated price expectations on the part of many vendors. Against this background your Investment Manager, supported by the Board, continued to pursue a measured and selective approach towards new investment proposals.

Since the end of the period the Company has invested £1.0 million in the management buy out of Digico Europe Limited and the Investment

Manager is currently progressing a number of other attractive investment opportunities.

Meanwhile, the current portfolio exhibited encouraging progress over the period with a number of upward valuation movements. For further information on these investments please see the Investment Manager's Review on page 5 of this Interim Report.

Income

Income was derived from two main sources. Firstly, income from OEIC money market funds generated an average annualised yield of approximately 5.3% over the period; secondly, the investments made by your Investment Manager usually include a substantial component of interest-bearing loan stocks. These loan stocks are now beginning to make a significant contribution and at 30 June 2007 were generating an annualised yield of 7.8%. As at the end of the period, the annualised running yield on the qualifying investment portfolio as a whole was 4.1%, while upon all investments it was 4.9%.

Investment in qualifying holdings

The key date by which the Investment Manager is required to meet the target set by HM Revenue & Customs of investing 70% of the funds raised in qualifying unquoted and AIM quoted companies is 31 December 2007. Following the investment in Digico the Company was 48.6% invested in qualifying companies (based on VCT cost as defined in tax legislation). As outlined in

the accompanying Review, the Investment Manager remains confident of achieving this investment target by the end of the year. The balance of the portfolio is invested in a selection of OEIC money market funds.

Communicating with Shareholders

The Company maintains a programme of regular communication with Shareholders, with newsletters and a dedicated website: www.migvct.co.uk, supplementing the interim and annual reports. The Board welcomes the opportunity to meet Shareholders at the Company's Annual General Meetings during which representatives of the Investment Manager are present to discuss the progress of the portfolio. The next AGM of the Company will be held in May 2008.

Extraordinary General Meeting 30 October 2007 – Electronic communications

Subject to Shareholder approval, the Companies Act 2006 allows companies to send or supply documents and information to Shareholders in electronic form and by a website in place of hard copies. The Directors are of the opinion that this could be beneficial for both the Company and its Shareholders, in particular as it may help reduce administration costs and will ensure that Shareholders receive documents in a more timely manner.

To implement this the Directors are convening an Extraordinary General Meeting to be held on 30 October 2007 at which Shareholders will be asked to approve a single resolution authorising the Company to send communications electronically to Shareholders and make documents and information available to Shareholders on a website. The Notice of this meeting is included on pages 18-19 of this Interim Report and a personalised Proxy Form for use in relation to this meeting has been included with Shareholders' copies of this report.

Outlook

The Board is encouraged by the evidence of value creation within the current portfolio and with it the potential for profitable exit opportunities as the portfolio matures. Based on the Investment Manager's planned investment programme for the second half of the year, the Board is also confident that the Company should achieve the 70% test by 31 December 2007 and at least maintain this level of investment in qualifying companies going forward.

Finally, I would like to thank all of our Shareholders for their continuing support.

Keith Niven

Shareholder Information

Shareholders wishing to follow the Company's progress can visit the Company's website at www.migvct.co.uk which contains publicly available information or links to information about our largest investments, the latest NAV and the share price. The London Stock Exchange's website at www.londonstockexchange.com/engb/pricesnews provides up to the minute details of the share price and latest NAV announcements, etc.. A number of commentators such as TrustNet at www.trustnet.com and Allenbridge at www.taxshelterreport.co.uk provide comparative performance figures for the VCT sector as a whole. The share price is also quoted in the Financial Times.

The Company circulates a bi-annual newsletter to Shareholders in the quarters in which it does not publish Annual or Interim Accounts. The next edition will be distributed in November 2007. The Board intends to announce the Company's preliminary results in respect of the year ended 31 December 2007 at the beginning of March 2008, and the Annual Report will be circulated to Shareholders later that month.

Net asset value per share

The Company's NAV per share as at 30 June 2007 was 107.29 pence. The Company announces its unaudited NAV on a quarterly basis.

Dividend

The Directors have declared an interim dividend of 1.00 penny per share payable on 20 September 2007 to Shareholders on the Register on 24 August 2007.

Shareholders who wish to have dividends paid directly into their bank account, rather than sent by cheque to their registered address, can complete a mandate for this purpose. Mandates can be obtained by contacting the Company's Registrars, Computershare Investor Services PLC at the address below.

Shareholder enquires:

For information on your holding, to notify the Company of a change of address or to request a dividend mandate form please contact the Company's Registrars, Computershare Investor Services PLC, on 0870 702 0010 or write to them at PO Box 82, The Pavilions, Bridgwater Road, Bristol BS99 7NH or, should you prefer, visit their website at www-uk.computershare.com.

Investment Manager's Review

Over the last six months the portfolio has begun to demonstrate the benefits of our approach of investing in established, profitable companies, principally by way of Management Buy Outs ("MBOs").

The rate at which we have made new investments has slowed considerably, particularly compared to the rate seen in the first half of 2006. Competition for transactions has increased markedly. This has in part been driven by the amount of debt and equity funding available to companies, which has led to inflation in purchase prices. We have also been offered a greater number of lower quality transactions. We have therefore been adopting a highly selective and cautious approach towards new investment in the current environment.

Since the period-end an investment of £1 million has been completed as part of the MBO of Digico Europe Limited, the global market leading manufacturer of digital sound mixing consoles for the live performance, theatre, post-production and broadcast markets. Several other opportunities have also been agreed and are proceeding through diligence and contract negotiations. They include investments in three new companies that are being established with experienced operating partners in the support services, healthcare and food and beverage sectors. In the light of these opportunities, we remain fully confident of meeting the 70% qualifying investment target by the 31 December 2007 deadline.

At 30 June 2007 a total of £8.8 million at cost had been invested in thirteen companies, and these have been valued at that date, in accordance with International Private Equity

& Venture Capital Valuation ("IPEVCV") guidelines, at £11.9 million, an uplift of 35%. Six companies have moved from cost to a discounted earnings valuation since the beginning of the year, and all have shown an increase, generally reflecting performance in line with our expectations at the time we made our investment.

Of particular note has been the strong trading experienced by both Blaze Signs and PastaKing, the former seeing growth from its major retail customers and the latter benefiting from the increasing trend towards healthy eating in schools and colleges. Of the other four companies which have seen an uplift in value; Campden Media is expanding its US conferencing business and establishing an online offering for its healthcare publications; British International has recently been successful in gaining offshore work for its helicopter fleet and is now in its busy summer period; Vectair is showing impressive revenue and profit growth in Europe for its range of air fresheners and toiletry products, and is also expanding into the USA, and VSI has performed fully in line with expectations and is considering expansion opportunities.

Whilst unquoted companies are not immune from the wider economic environment and the recent increases in interest rates, we remain encouraged by the overall performance of the portfolio and have recently seen potential for some early realisations.

Notes to the Unaudited Financial Statements

1. Principal accounting policies

The following accounting policies have been applied consistently throughout the period. Full details of principal accounting policies will be disclosed in the Annual Report.

a) Basis of accounting

The accounts have been prepared under UK Generally Accepted Accounting Practice (UK GAAP) and, to the extent that it does not conflict with the fair value rules of the Companies Act 1985, the 2003 Statement of Recommended Practice, 'Financial Statements of Investment Trust Companies', revised December 2005.

b) Presentation of the Income Statement

In order to better reflect the activities of a VCT and in accordance with the SORP, supplementary information which analyses the Income Statement between items of a revenue and capital nature has been presented alongside the Income Statement. The net revenue is the measure the Directors believe appropriate in assessing the Company's compliance with certain requirements set out in Section 842AA Income and Corporation Taxes Act 1988.

c) Investments

Investments are recognised on a trade date basis. All investments held by the Company are classified as "fair value through profit and loss", in accordance with the International Private Equity & Venture Capital Valuation (IPEVCV) guidelines published in 2005. For investments actively traded in organised financial markets, fair value is generally determined by reference to the London Stock Exchange market quoted bid prices at the close of business on the balance sheet date.

Unquoted investments are stated at fair value by the Directors in accordance with the following rules, which are consistent with the IPEVCV guidelines:

- (i) Investments which have been made in the last twelve months are at fair value which, unless another methodology gives a better indication of fair value, will be at cost;
- (ii) Investments in companies at an early stage of their development are valued at fair value which, unless another methodology gives a better indication of fair value, will be at cost;
- (iii) Where investments have been held for more than twelve months or have gone beyond the stage in their development in (i) or (ii) above, the shares may be valued by applying a suitable price-earnings ratio to that company's historic, current or forecast earnings (the ratio used being based on a comparable listed company or sector but the resulting value being discounted to reflect lack of marketability). Where overriding factors apply, alternative methods of valuation will be used. These will include the application of a material arms-length transaction by an independent third party, cost less provision for impairment, discounted cash flow, or a net asset basis;
- (iv) Where a value is indicated by a material arms-length transaction by a third party in the shares of a company, this value will be used.

Notes to the Unaudited Financial Statements (continued)

(v) Where fair value cannot be reliably measured under notes 1 c) i-iv above, an investment is held at the most recent carrying value, reduced where there is evidence of impairment by the estimated extent of impairment.

Non-current asset investments which are not quoted are stated at Directors' best estimate of fair value, in accordance with IPEVVCV guidelines.

2. Capital gains and losses on investments, whether realised or unrealised, are dealt with in the capital reserve and movements in the period are shown in the Income Statement.
3. In accordance with the policy statement published under "Management and Administration" in the Company's prospectus dated 9 July 2004, the Directors have charged 75% of the investment management expenses to the capital reserve.
4. Earnings for the six months ended 30 June 2007 should not be taken as a guide to the results for the full year.
