### Performance data for all fundraising rounds

The following tables show, for all investors in Mobeus Income & Growth 4 VCT plc, how their investments have performed since they were originally allotted shares in each fundraising.

Shareholders should note that funds from the original fundraising in 1999 were managed by three investment advisers, up until 1 August 2006. At that date, Mobeus became the sole adviser, to this and all subsequent fundraisings.

Total return data, which includes cumulative dividends paid to date, is shown on both a share price and a NAV basis as at 30 June 2021. The NAV basis enables Shareholders to evaluate more clearly the performance of the Investment Adviser, as it reflects the underlying value of the portfolio at the reporting date. This is the most widely used measure of performance in the VCT sector.
